NOTES TO FINANCIAL STATEMENTS

NOTE 1 Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of Selective Insurance Company of America (the “Company") are presented on the basis of accounting practices prescribed or permitted by the State of New Jersey Department of Banking and Insurance (the “Department").

The Department recognizes only statutory accounting practices prescribed or permitted by the State of New Jersey for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under the New Jersey Insurance Law. The National Association of Insurance Commissioners' (“NAIC”) Accounting Practices and Procedures manual, ("NAIC SAP") has been adopted as a component of prescribed or permitted practices by the State of New Jersey.

A reconciliation of the Company’s net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the Department is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

No change

C. Accounting Policy

Investments

(2) Bonds are principally stated at amortized cost using the modified scientific method. Bonds with an NAIC designation of 3 or higher and where a decrease in value of the bond is deemed temporary are stated at the lower of amortized cost or fair value with the difference charged to unassigned surplus as net unrealized losses on investments. SVO-identified exchange-traded funds are stated at fair value, with changes in fair value recorded as unrealized gains or losses in unassigned surplus.

(6) Bonds represent security structures that qualify as in-substance creditor relationships and are classified as either Issuer Credit Obligations (“ICOs”) or Asset-Backed Securities (“ABS”). Bonds are principally stated at amortized cost using the modified scientific method and may include non-redeemable preferred stock with certain debt-like characteristics which are listed and market priced by the Securities Valuations Office (“SVO”) as bonds.

ABS of high credit quality at acquisition are adjusted for the effects of changes in prepayment assumptions using the retrospective method. Subsequently, if an ABS is downgraded below high credit quality, the retrospective method continues to be applied unless an other-than-temporary impairment (“OTTI”) is recorded, at which time the prospective method is used. All ABS that are not of high credit quality at acquisition use the prospective method for recording the effects of changes in prepayment assumptions.

(2) The Company did not recognize other-than-temporary impairment (“OTTI”) charges for asset-backed securities in 2026 as a result of: (i) the intent to sell; or (ii) the inability or lack of intent to retain the investment in the security for a period of time sufficient to recover the amortized cost basis.

(4) The following tables summarize the gross pre-tax unrealized losses (that is the amount by which cost or amortized cost exceeds fair value) for all impaired securities for which OTTI charges have not been recognized in earnings as a realized loss, (including securities with a recognized OTTI for non-interest related declines when a non-recognized interest related impairment remains) and the related aggregate fair value at June 30, 2026 and December 31, 2025:

a) The aggregate amount of unrealized losses:

1. Less than 12 Months	$ (10,749,725)

This conclusion reflects management's current judgment as to the financial position and future prospects of the entity that issued the investment security and underlying collateral.

During the second quarter of 2026, we transferred securities from Level 3 to Level 2 in the fair value hierarchy. These were perdominately investments in preferred stock and asset-backed securities that were transferred on June 30, 2026 as we transitioned to a matrix-pricing methodology that provides sufficient observable inputs to support Level 2 classification and eliminates the prior need to rely on significant unobservable inputs in determining fair value.

(3) The Company consistently follows its policy for determining when transfers between levels are recognized.

(4) For further discussion regarding the valuation techniques used for our financial instruments portfolio, refer to Note 1(c) “Accounting Policies” in the 2025 Annual Statement.

(5) The Company did not have any derivative assets or liabilities.

B. The Company discloses its fair value information in Note 1(c) “Accounting Policies” and in Note 20 “Fair Value Measurement” in the 2025 Annual Statement.
