Certain statements in this report, including information incorporated by reference, are “forward-looking statements” as that term is defined in the Private Securities Litigation Reform Act of 1995 (“PSLRA”). The PSLRA provides a safe harbor under the Securities Act of 1933 and the Securities Exchange Act of 1934 for forward-looking statements. These statements relate to our intentions, beliefs, projections, estimations or forecasts of future events or our future financial performance and involve known and unknown risks, uncertainties and other factors that may cause our or our industry’s actual results, levels of activity, or performance to be materially different from those expressed or implied by the forward-looking statements. In some cases, you can identify forward-looking statements by use of words such as “may,” “will,” “could,” “would,” “should,” “expect,” “plan,” “anticipate,” “target,” “project,” “intend,” “believe,” “estimate,” “predict,” “potential,” “pro forma,” “seek,” “likely” or “continue” or other comparable terminology. These statements are only predictions, and we can give no assurance that such expectations will prove to be correct. We undertake no obligation, other than as may be required under the federal securities laws, to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Factors that could cause our actual results to differ materially from those projected, forecasted or estimated by us in forward-looking statements, include, but are not limited to:

- difficult conditions in global capital markets and the economy;
- deterioration in the public debt and equity markets and private investment marketplace that could lead to investment losses and fluctuations in interest rates;
- ratings downgrades could affect investment values and therefore statutory surplus;
- the adequacy of our loss reserves and loss expense reserves;
- the frequency and severity of natural and man-made catastrophic events, including, but not limited to, hurricanes, tornadoes, windstorms, earthquakes, hail, terrorism, explosions, severe winter weather, floods and fires;
- adverse market, governmental, regulatory, legal or judicial conditions or actions;
- the concentration of our business in the Eastern Region;
- the cost and availability of reinsurance;
- our ability to collect on reinsurance and the solvency of our reinsurers;
- uncertainties related to insurance premium rate increases and business retention;
- changes in insurance regulations that impact our ability to write and/or cease writing insurance policies in one or more states, particularly changes in New Jersey automobile insurance laws and regulations;
- recent federal financial regulatory reform provisions that could pose certain risks to our operations;
- our ability to maintain favorable ratings from rating agencies, including A.M. Best, Standard & Poor’s, Moody’s and Fitch;
- our entry into new markets and businesses; and
- other risks and uncertainties we identify in filings with the United States Securities and Exchange Commission, including, but not limited to, our Annual Report on Form 10-K and other periodic reports.

These risk factors may not be exhaustive. We operate in a continually changing business environment, and new risk factors emerge from time-to-time. We can neither predict such new risk factors nor can we assess the impact, if any, of such new risk factors on our businesses or the extent to which any factor or combination of factors may cause actual results to differ materially from those expressed or implied in any forward-looking statements
